

### CURBSIDE FLU CLINIC

On October 10<sup>th</sup> we will be having a curbside flu clinic! To keep you safe during the pandemic you can simply drive up to the curb of our office building, and our nurses will be waiting to give out flu shots. As an extra convenience this year we will also be giving out flu shots to parents! If you would like to attend this clinic you will need to make an appointment for anytime between 8-12. You can call our office or even make an appointment on the patient portal!

For all parents wanting to be vaccinated you will need to bring your driver's license and a copy of your insurance card. We can only provide vaccines to adults with insurance that is in network with our vaccine provider, Vaxcare. Please see our website to see if your insurance is in network. For those with out of network insurances you may still get vaccinated, but you will need to pay for the vaccine out of pocket. The charge for the vaccine will be \$30.

Any person driving to the clinic who is also getting vaccinated must wait 15 minutes after getting the shot to be monitored for any reactions.

To make an appointment on the portal you will need to log into your account. Click on Appointments, and then click on "Schedule New Appointment." Click "Flu Shot Visit" and click next. In the additional details please list the number of parents who would like to get a flu shot as well and if possible, the model and color of the car you will be in on the day of the curbside clinic. (If you are scheduling appointments for multiple children you only need to list the number of parents on one of them). Select "Nursing Schedule" as the provider and hit next. Select a time slot and hit "Book Appointment". Please repeat this process for all children you want to bring for a flu shot.

If you cannot make it to our curbside clinic, we will also be offering in office clinics during October. We will have available appointments from 8-10 on Wednesday mornings and from 1-4 on Friday afternoons. Please remember to either tell our office over the phone or write in the appointment detail field if parents will be getting vaccinated as well.

We will not be doing walk in flu shots this year, so please make sure you call or go onto the portal to make an appointment.

For information regarding the flu vaccine, please see the Vaccine Information Statement: <https://www.cdc.gov/vaccines/hcp/vis/vis-statements/flu.pdf>.
